Portfolio: jozyl27.github.io/joselopez-portfolio/
GitHub: JozyL27
LinkedIn: jozy-lopez/

Skills

Front-end: JavaScript, React, jQuery, HTML5, CSS3

Back-end: Node.js, Express.js, Knex.js, PostgreSQL, SQL

Dev-tools: Git, Github, Chrome DevTools, Zeit, Heroku

Bilingual and fluent in both English and Spanish

Projects

BrewMe: brewme-client.now.sh/
- Github: brewme-client
- I developed this application's front end components, developed a backend server, developed a database, deployed both front end and back end, and developed API endpoints for the front end client to use.
- Tech stack: HTML5/CSS3, JavaScript, Git, GitHub, React, Express, Node, Knex, postgreSQL

Keeply: thinkful-ei-leopard.github.io/joselopez-bookmarks-app/
- Github: joselopez-bookmarks-app
- I developed this application's front end components, styled the application, used thinkful's bookmark API for the front end client, and deployed the application using github pages.
- Tech stack: HTML5/CSS3, jQuery, JavaScript, Git

Habla: https://spaced-repitition-app.now.sh/
- Github:https://github.com/thinkful-ei-leopard/spaced-repitition-jose-christopher-client
- I developed this application's front end components, deployed both front end and back end, and developed API endpoints for the front end client to use.
- Tech stack: HTML5/CSS3, JavaScript, Git, GitHub, React, Express, Node, Knex, postgreSQL, Cypress.io, Mocha, Chai

Katia: https://katia.now.sh/
- Github: https://github.com/gage117/Katia-client
- I am the product owner of Katia and developed the application's front end components, designed and created the UI / UX, deployed the front end client, and developed API endpoints for the front end client to use.

- Tech stack: HTML5/CSS3, JavaScript, Git, GitHub, React, Express, Node, Knex, postgreSQL, Mocha, Chai, AWS S3, Socket.io, Framer Motion, Swapable, Jest

Experience

Thinkful / Full-Stack Web Development Program
November 2019 - Current

- Full-stack app development with the following tech: JavaScript, HTML5/CSS3, jQuery, React.js, Git, GitHub, Node.js, Express.js, SQL, postgreSQL
- **During the program I:** had 1:1 mentor sessions with experienced developers, learned essential computer science data structures and algorithms, learned app development best practices, had daily paired programming sessions with other talented developers

Education

Prairie State College / Sociology
September 2017 - May 2019
